

THE LIGHTHOUSE.

Visionary. Innovative. Globally unique.

ABOVE IT ALL.

It started with an idea: a new way of living. Atop the world. In a private realm of your own conception.
Highly visible from a distance, but secluded.

NEW PERSPECTIVES.

Thanks to its exceptional architecture, the Lighthouse can be realized in places where classical architecture would be inconceivable.

BLENDS IN BUT STANDS OUT.

In residential areas the Lighthouse makes an exciting complement to traditional architecture.

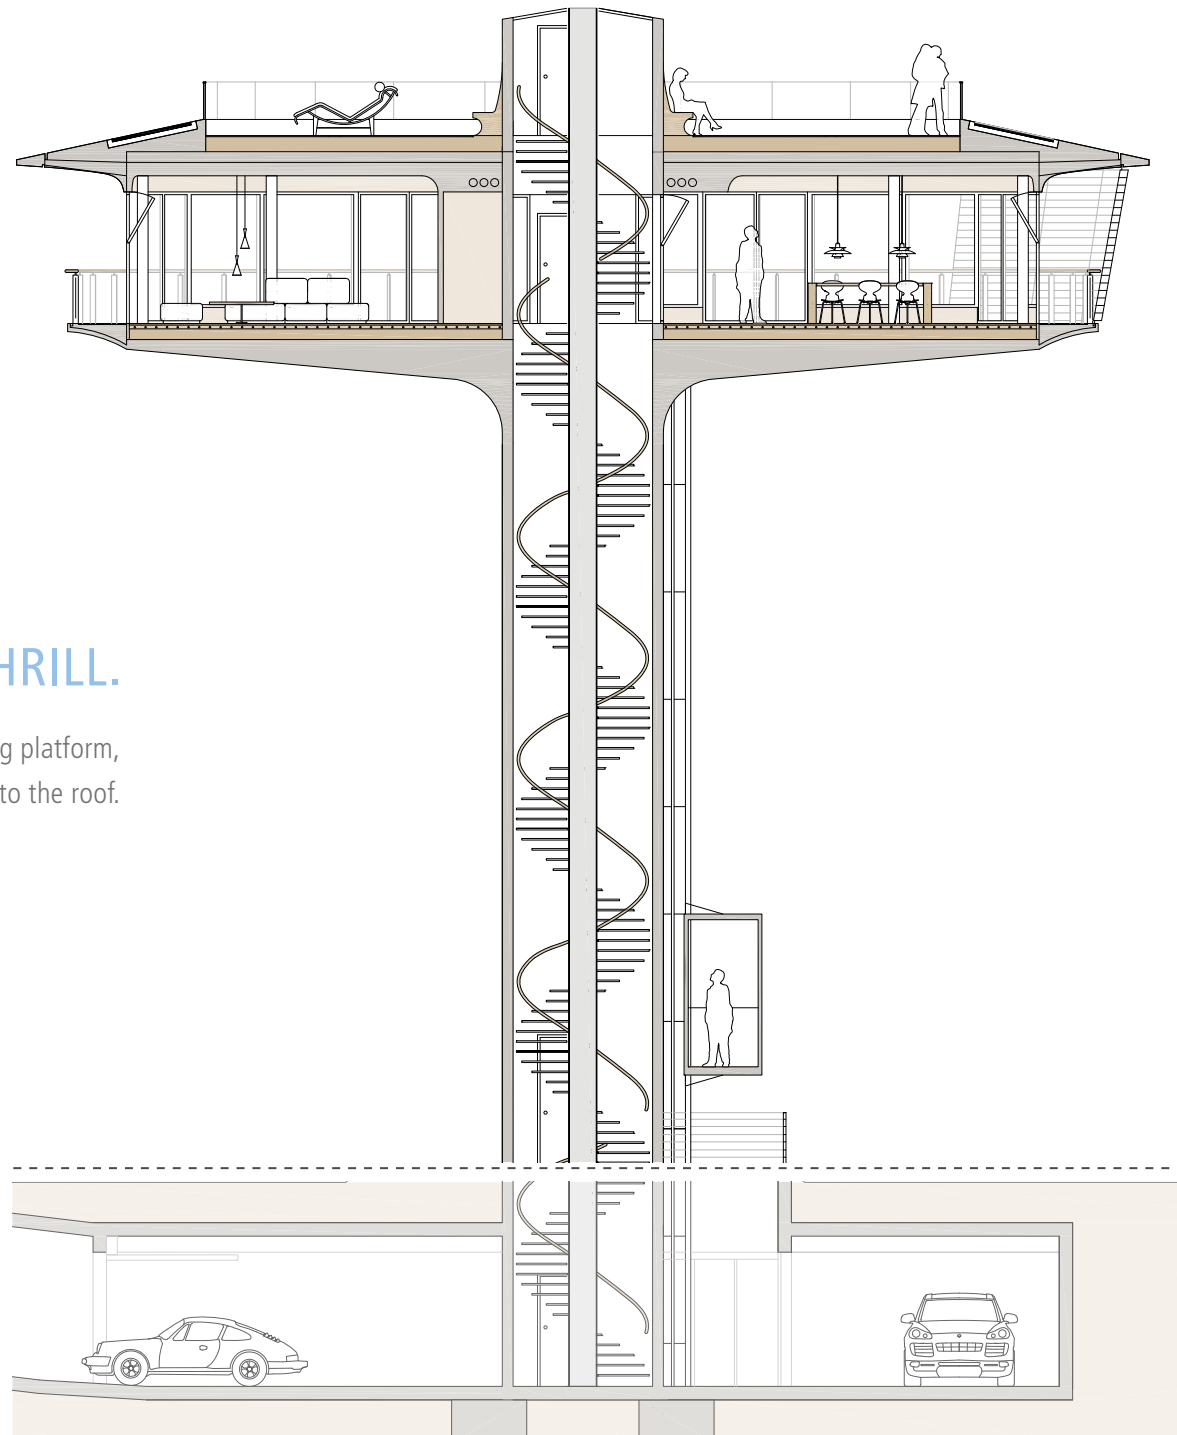

AGREEABLY EYE-CATCHING.

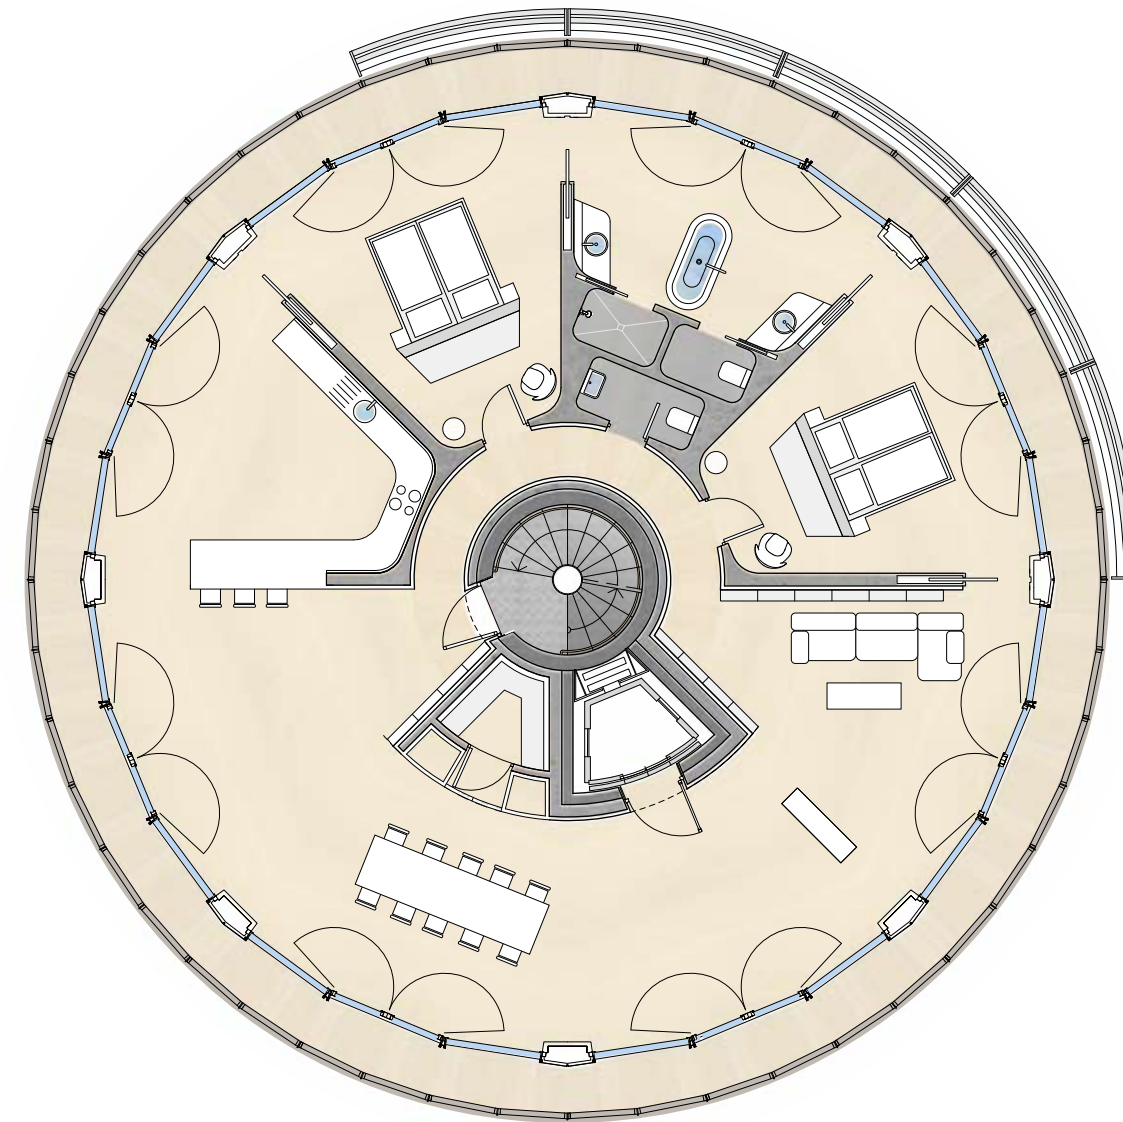

Timeless but ultra-modern, the Lighthouse blends into any surroundings – in the water or beside it; in an urban or a mountain setting.

BUILT TO THRILL.

An elevator whisks you comfortably up to the living platform,
or from the basement garage onto the roof.

LIVING – FREELY INTERPRETED.

Enjoy the luxury of giving your Lighthouse its
own individual form. Loft-style or room by room –
anything is possible.

THE LIGHTHOUSE IS REALITY.

Experience futuristic living now in Lighthouse Zero at the tip of Baakenhöft in HafenCity Hamburg.

ALL-ROUND VISTAS.

Lighthouse residents enjoy remarkable 360 degree panoramic views – both from the living platform and the stupendous roof terrace.

SEE AND BE SEEN.

The Lighthouse makes an impressive home but functions just as well as a corporate head office – signalling effect included.

BEAUTIFUL OUTLOOK.

Be inspired by the future.
